

IQ Series

MORE HEAT FOR LESS MONEY.
infrasave
radiant heaters

a hot new twist.

The IQ Series tube heater keeps up with every twist and turn in your heating needs.

Don't Settle for an underperforming heating system - turn your attention to the comfort, radiant efficiency and substantial fuel savings provided by the InfraSave IQ Series.

With many performance enhancing features and our modular elbow kit, you can satisfy comfort heating needs, site determined layout and your bottom line by reducing both installation time and precious operating costs.

Durable and reliable InfraSave heaters are perfect for warehousing, manufacturing, service garages, welding and fabricating shops. Add in the best warranty in the industry and you have the key to slash your heating budget.

Swaged Tube System increases tube system rigidity and integrity; provides a clean, straight appearance while simplifying installation.

A

Tall focus shield reflectors with closed reflector ends extend below tube surface to trap convection heat and convert it to infrared heat output.

B

Webbed hangers promote free passage of entrapped convection heat providing more uniform heat output.

C

24 or 120 Volt thermostat ready; Electrical cord and plug to reduce installation costs.

D

Factory Installed igniter to reduce installation time.

E

Operating Status lights to simplify trouble shooting.

NOTHING TO HIDE
